

Information for Connecticut Prescribing Practitioners and Pharmacists

ANKTIVA® (Nogapendekin alfa inbakicept-pmIn) solution, for intravesical use

Connecticut law requires prescription drug manufacturers to disclose in writing the list price of a legend drug when providing information concerning that drug to a prescribing practitioner or pharmacist.

The prices listed below represent the Wholesale Acquisition Costs ("WAC") as made available to the public by a third-party publisher. WAC does not reflect discounts, rebates and other reductions in price. Most patients do not pay WAC. The actual price paid by patients may differ and is dependent upon the individual patient's insurance.

Marketed Product	NDC	List Price (400 mcg/0.4 mL vial)
ANKTIVA 400 mcg/0.4 mL	81481-803-01	\$35,800.00
